## Career Objective

---

Aspiring software developer eager to apply my programming and problem-solving skills in a collaborative team, contribute to innovative projects, and grow with the organization.

## Education

---

**Anil Neerukonda Institute of Technology And Sciences**

*Bachelor of Technology in CSE - 9.32 CGPA*

Tagarapuvalasa, Vishakapatnam

2022 – 2026

**Sri Chaitanya Junior College**

*Intermediate M.P.C - 97 %*

Marikavalasa, Vishakapatnam

2020 – 2022

## Internship

---

**InnCircles**

*Software Developer Intern*

July 2025 – Present

*Onsite*

- Contributed to production-level backend systems at Inncircles using MEAN and MERN stacks, implementing database models and designing complex backend workflows to support a construction management platform, improving real-time data delivery and overall system performance for enterprise clients in construction and real estate.
- Worked within agile teams using Jira and Bitbucket to manage development workflows, while implementing backend features including Excel data handling, reducing API latency from 20s to 5–6s (improved performance by 70–75%).
- Authored unit test cases for backend flows using JUnit, ensuring correctness of API logic and contributing to improved code coverage across key service modules in the production environment.
- Implemented role-based access control (RBAC) to manage user permissions and restrict access to modules based on assigned roles, enhancing platform security and authorization management.

## Projects

---

**Helper Management System** | *MEAN Stack (MongoDB, Express, Angular, Node.js)*

July 2025

- Built a full-stack helper management system with CRUD operations, role-based workflows, and RESTful APIs using Angular, Node.js, Express, and MongoDB.
- Implemented unique QR code generation allowing helpers' details to be accessed via QR scanning with dynamic form-based data handling.

**BatBazaar** | *MERN Stack (MongoDB, Express, React, Node.js)*

March 2025

- Built a MERN stack e-commerce site to sell cricket bats, with user authentication, product management, a dynamic cart, and a responsive frontend.

## Technical Skills

---

**Languages:** Java, Python, C, HTML/CSS, JavaScript

**Frameworks/Libraries:** React, Express, Angular, Node.js

**Developer Tools:** Git, VS Code, PyCharm, IntelliJ

**Databases:** MongoDB, SQL

**Core CS Knowledge:** Data Structures and Algorithms, DBMS, Operating Systems

## Achievements and Certifications

---

**LeetCode:** Solved 300+ problems covering data structures, algorithms [↗](#)

**NPTEL:** Programming in Java [↗](#)

## Extracurricular Activities

---

**NSS (National Service Scheme) Member:** Actively participated in community service activities, focusing on social awareness, health campaigns, and environmental initiatives.
